Product Description

How to use the Auto tracking for human detection:

step 1 pls log in trough IE brower by typing the camera's IP,

step 2 click Event to Check whether the human detection function is turned on, should be turned on

step 3.Click "live" to enable automatic tracking in "Preset" call92

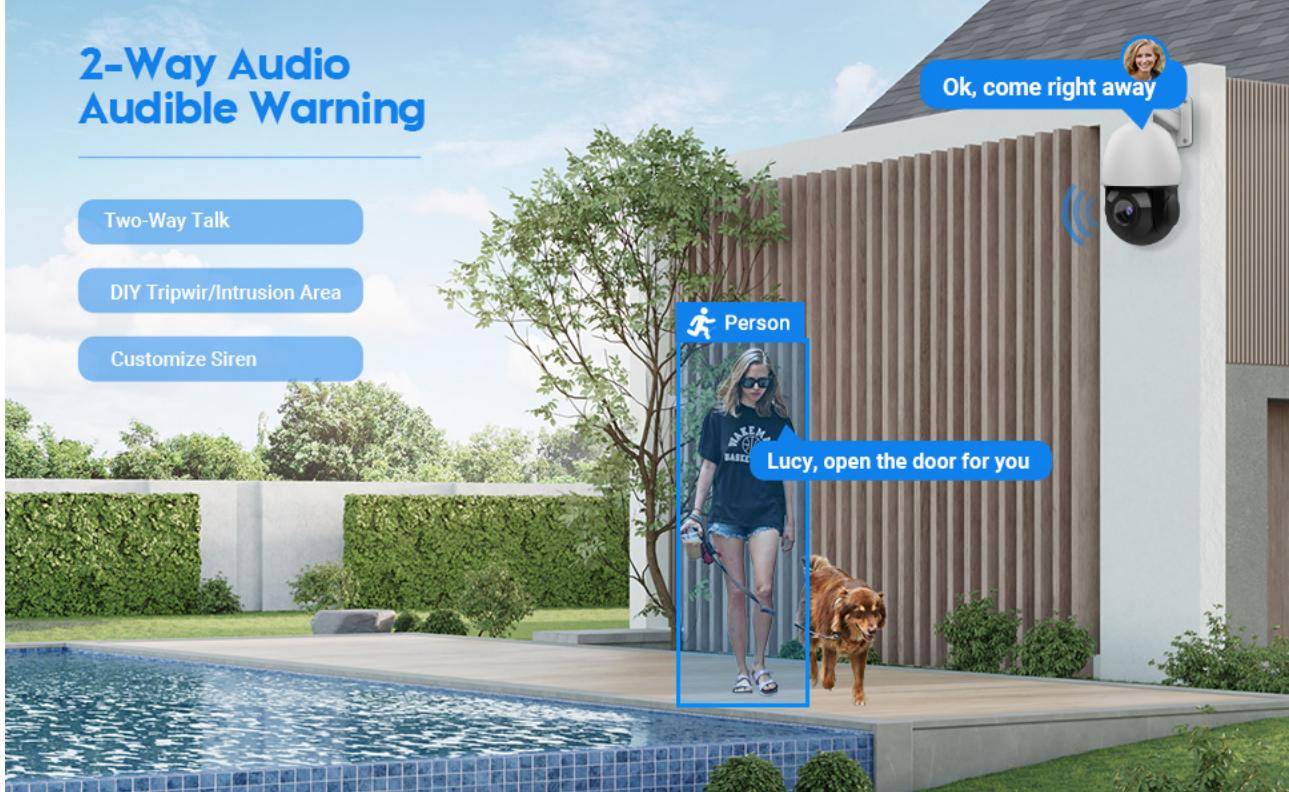

How to set the time between cruise?

for example when you want to set the cruise 41 and the interval time need 15seconds

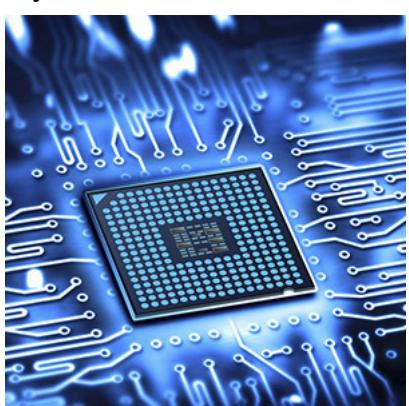

step 1 typing 114 ,click add

step 2 typing 15,click add

step 3 typing 41,click call, then the cruise 41 start to cruise , and stop for 15 seconds,then restart to cruise

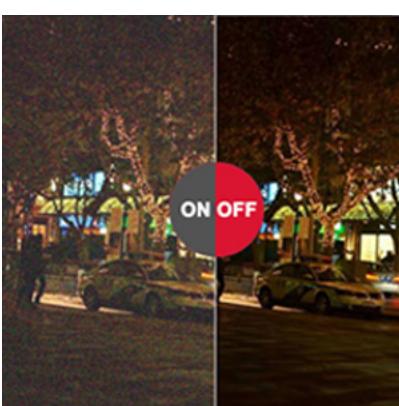

Key Features

High Codec Technology

High Efficient encoding technology greatly saves bandwidth resource and storage space. Better encoding algorithm to save more bandwidth and storage.

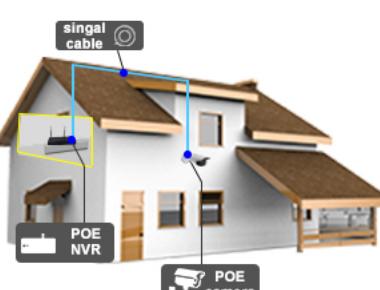

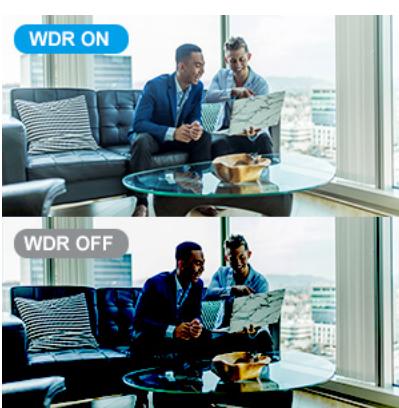

3D Digital Noise Reduction technology

In dim condition, specially at night, there is snow like noise in the picture, but with the 3D DNR, it can suppress snow-like noise and keep details, offer you a good surveillance image.

IP66 Water-Proof Protection

The camera passes a series of strict test on dust and soak. It has dust-proof function, and the enclosure can works normal after soaking in 1 m deep water for 30 minutes.

ICR Day/Night Auto IR-cut Filter

With ICR day/night auto ir-cut filter switch, improve the sensitivity of the camera in low illumination scene effectively, to provid 24h real and clear live time image. Clear IR night vision range up to 165ft.

This is a outdoor ptz camera features a auto-focus 4.7~84.6mm vari-focal lens, and built-in 6 IR LEDs which have different power for different IR range. These 6 IR lights in different parts will be turned on according to different focus distance. And the field of view for different focus that makes different light volume enter the lenses. If needed, please test the camera outside.

Wide Dynamic Range technology

129dB WDR(Wide Dynamic Range) cameras often incorporate an image sensor that takes different exposures of a scene and combine them into one image, enabling objects in both bright and dark areas of a scene to be visible.

PoE(Power over Ethernet)

PoE outdoor and indoor: Power over Ethernet with only one Ethernet cable (up to 330ft), No power adapter needed, optional PoE switch or injector, easy setup with plug and play. RJ-45 (10/100Base-T). Please use our Power Adapter(DC 12v 3A) in the package or PoE Switch (802.3at).

Package Contents

Packing well in solid box, no worry any damage during the transmision.

- DC12V power adapter
- 5MP Speed dome camera: PTZ-4518X-I2

Camara Specification

Image Sensor:	1/2.8" 5Megapixel progressive scan CMOS
Min. Illumination:	Color: 0.1 Lux @(F1.6, AGC ON); B/W:0.01 Lux @(F1.6, AGC ON); 0 Lux with IR
Focal Length:	4.7 mm to 84.6 mm, 18 × optical zoom (84.6 divided by 4.7 equals 18), F1.6 to F2.8
Zoom Speed:	Approx. 2 s (optical lens, wide-tele)
IR:	IR Distance: 165ft; IR LED: 4PCS
Basic Event:	Motion Detection
Max. Resolution:	2592 × 1944
Main Stream:	20fps@5MP(2592x1944); 30fps@4MP(2592x1520); 25fps@3MP/1080P/720P
API:	O-N VIF (Profile S, Profile G, Profile T), HIK VISION

Web Browser:	IE 8 to 11, Chrome 31.0+, Firefox 30.0+, Edge 16.16299+; Client: SADP, Danale, Blue Iris, iSpy
Protection Level:	IP66 standard, ±2kV Line to Gnd, ±1kV Line to Line, IEC61000- 4-5
Power:	12 VDC, 1.5 A; PoE (802.3at), please use our Power Adapter(DC 12v 3A) in the package or PoE Switch (802.3at)

Customer questions & answers

Question: Will this camera work with just a cat6 cable run to it?

Answer: Yes, can power via POE
By Chris Martin on February 26, 2021

Question: I see this ptz camera description says power source 12 vdc. yet in an answer to power question here, seller says 48 vdc, which is it?
Answer: The answer that you can use from 12 to 48 volts is wrong. It's one or the other. If you use the power supply that plugs into the camera power connector it requires 12 v but the PoE which is the power over the ethernet cable is 48 V and you need a PoE adaptor or a PoE router to supply the power. With PoE you do not ... [see more](#)
By Mike on April 24, 2021

[See more answers \(2\)](#)

Question: I see that the camera comes with a dc 12v adapter, if i connect the camera to the ethernet, do i still have to connect the dc adapter?

Answer: These answers are confusing and not necessarily correct. If you do not have PoE over your ethernet cable they you will need the 12 v power supply in addition to the ethernet cable. However if you have a PoE power source connected to the ethernet cable running to the camera then you do not need the 12 v supply.
By Mike on April 24, 2021

Question: how long is the power cable

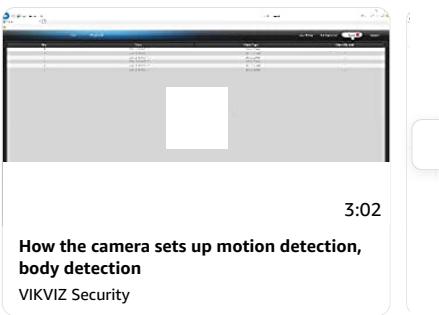

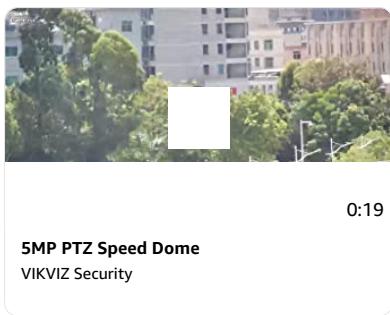

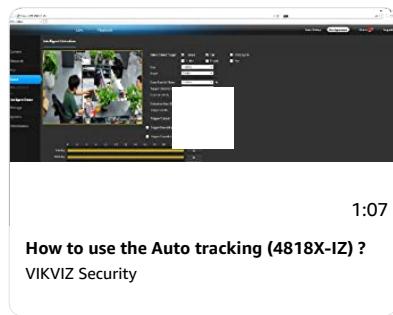

Answer: The power is supplied by POE ethernet cable. I believe the limit is up to 300 feet.
